

VOCABULARY MADE EASY

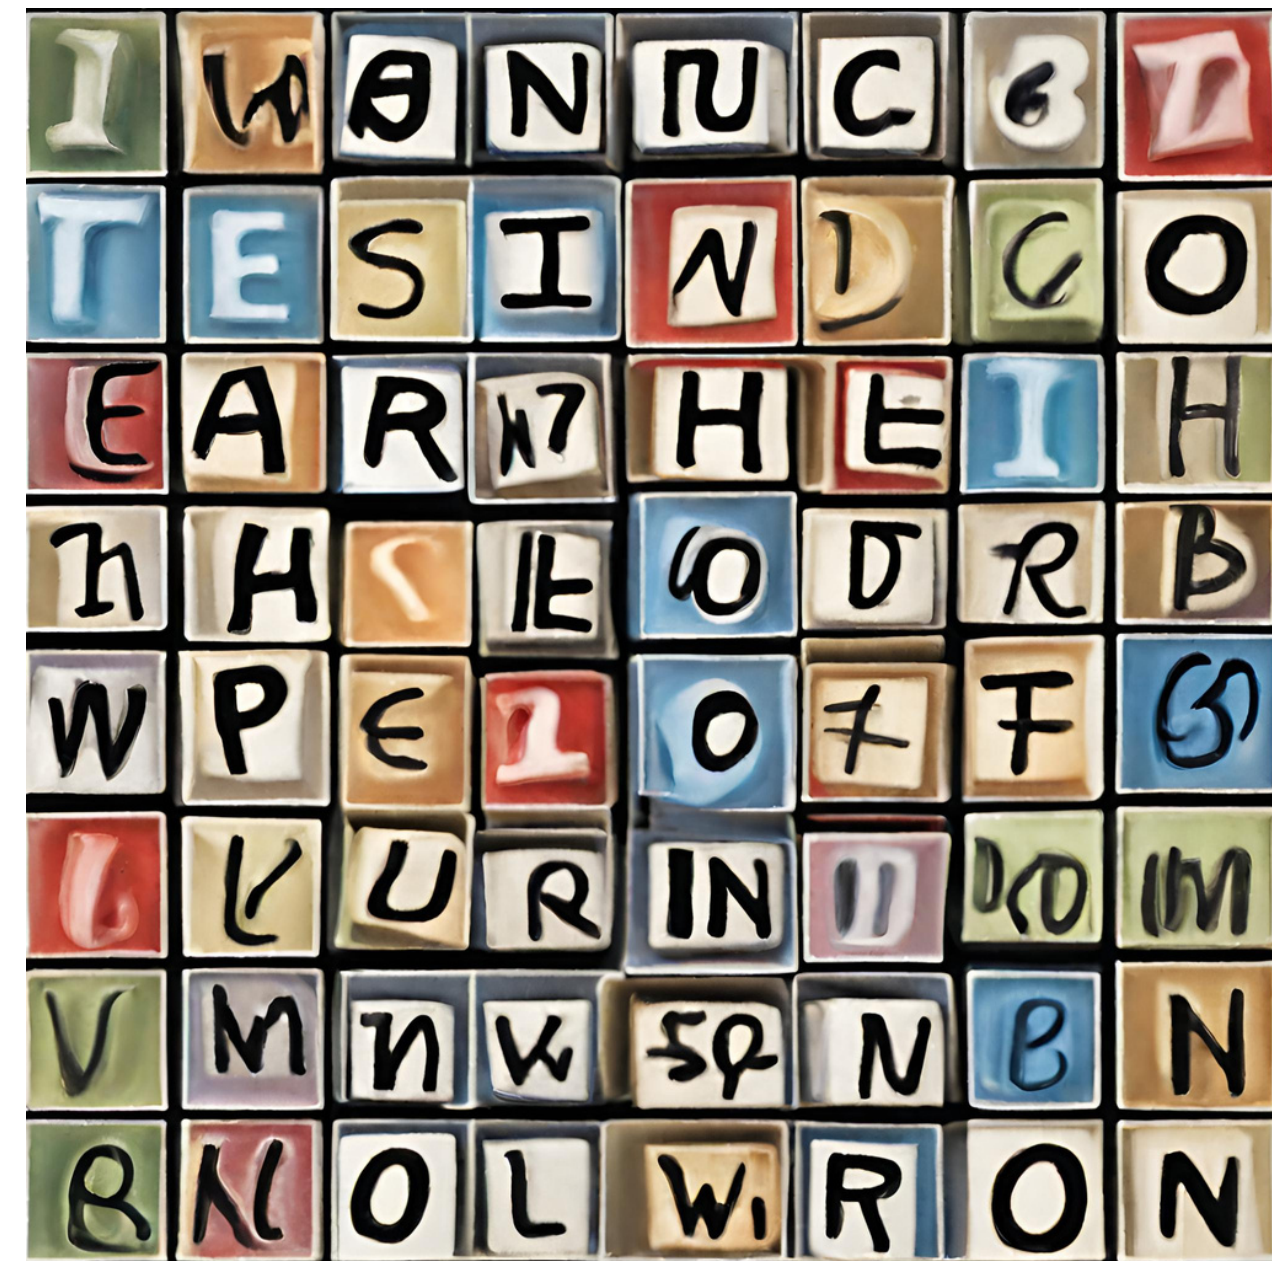

time to level up your speech

HOW TO LEARN NEW WORDS ?

Instead of searching for words in a dictionary which is so time consuming we have brought to you a game where you can play and increase your vocabulary .

ABOUT THE GAME

It requires you to qualify five rounds where in each round you need to find the words in the grid. Finding any word would result in display of its meaning on the screen, This game was built using pygame.

HOW TO PLAY?

Follow the steps to play the game:

1. You can move in the grid using arrow keys on keyboard.
2. If you find the word then move to its position and press 's' key then move in the direction of the word until you reach the last word.
3. Press space bar key while being at the last word. If the word is correct it will provide you with its meaning else ask you to start again.
4. Press n to continue.
